HOW TO ORDER

We appreciate all orders. No order too large and none too small. Remittance may be made by registered mail for cash. Stamps, postal or express money order, and personal check also accepted. When sending check, kindly add 5c for exchange fee.

A 15% SAVING

We prepay the transportation charges on all orders of \$3.00 or more. On smaller orders, kindly add 15% for postage. When you order from us you know exactly what your plants will cost you delivered to your door.

ANOTHER SAVING

Minnesota has no sales tax law. Do not include your state sales tax when remitting to us.

SPECIAL DELIVERY

If you want quick delivery of your plants, we are equipped to give you this service at the following rates:

1 to 4 plants 45c
5 to 24 plants 55c
over 25 plants 70c

Just add the amount to your remittance and we will prepay postage and send Special Delivery. An extra plant will be enclosed with each Special Delivery order.

MUMS AS CHRISTMAS GIFTS

Solve your Christmas shopping problems by giving "MUMS FROM MINNESOTA" to friends and relatives. It's simple! Avoid the crowds! Just make your selection from this catalog at home and mail it to us. That's all you have to do. We will send your friends a gift card at Christmas-time giving the names of the plants you have chosen to be sent at spring-planting time. The Mums will be sent out postpaid in the spring, all ready to start growing in their gardens. Your friends will truly appreciate your thoughtfulness in choosing "MUMS FROM MINNESOTA" for their Christmas gift.

FREE PLANTS

In the past we have always received much pleasure from including additional plants of some of the better varieties as gift or gratis plants. We hope to continue this custom. The number of gift plants will be determined by the size of the order. Whenever we order plants from a nursery, we are always thrilled to receive something we didn't expect. We hope our choices will please you. The Golden Rule will be applied here.

SUBSTITUTIONS

This year we are growing nearly a million sure-to-bloom Mums. We know this will not be enough to supply all our customers. If we cannot supply the variety ordered, **may we substitute a variety of equal or greater value of a similar color and season of bloom?**

KODACHROME SLIDES

We will lend to any reliable group, a set of Kodachrome slides of Mums that makes an excellent free program for garden clubs or other organizations having a projector. This set is sent free and contains more than 100 35-mm. slides. These full-color pictures depict individual flowers, borders, garden and field scenes and artistic arrangements. A short descriptive text accompanies the slides, which makes the showing time about one hour.

If your group is interested in this set, specify your meeting date, writing us at least 30 days in advance (60 days in spring and fall) and giving us an alternative date if possible. We then confirm your reservation. The slides will reach you ahead of your meeting date, and we ask that you return them promptly because other groups request them also. We supply return labels and postage.

We are sure that a program on Mums will be enjoyed by all. For your reservation write to

Mums from Minnesota

The Home of Better-Grown and Sure-to-Bloom Mums

WE SPECIALIZE. We grow only Garden Mums and we grow them well. Our very modern establishment is located in southern Minnesota and has been built especially for the growing of better Garden Mums.

Dependable blooming dates, descriptions and growth data are recorded each year from actual observations in our own test gardens. This enables us to offer only the newest and most dependable varieties.

You can be sure of better-grown, better-packed and sure-to-bloom Mums when you order from us. Plants will be ready and available from February 15 to June 15.

D., Double; SD., Semi-double; S., Single; Sp., Spoon

Name and Description	Height in Inches	Blooming Date	Price Each	Per 3	Name and Description	Height in Inches	Blooming Date	Price Each	Per 3
Admiral. D. Rich velvety dark red that is glorious for cutting or garden display.	30	Oct. 5	\$0.75	\$2.00	Bronze Giant. D. (Lehman.) Imposing flower of bright intense bronze in decorative form. Five-inch blooms produced in quantities on perfect upright stems, ideal for cutting.	30	Sept. 22	\$0.75	\$2.00
Admiration. D. (Bristol.) Large flowers in a medley of gleaming peach and bronzy salmon.	26	Sept. 24	.75	2.00	Bronze Pat. D. (Muller.) Pictured on cover. Bud sport of Patricia Lehman. As beautiful a bronze as Pat is a pink.	24	Sept. 28	.75	2.00
Adorable. D. (Lehman.) Pictured p. 2. This new pink has everything; large flower, early and dependable bloom, gorgeous color and breathtaking beauty. Color clear bright rose-pink with salmon reverse.	20	Sept. 15	.75	2.00	Butterscotch. D. (Kraus.) Pictured p. 11. Giant blooms of golden yellow, often 5 inches across. Early flowers golden yellow, later taking on bronze tints. Perfect bush habit. Magnificent!	30	Sept. 26	.75	2.00
Adorable Spoon. D. (Lehman.) New 1959! A sport of Adorable and an exact duplicate of that variety except for the petal formation. Flowers are large, deep rose-pink, with long quilled petals and short spoons.	20	Sept. 15	.75	2.00	Candleglow. D. (Lehman #1183.) New 1959! Tall, clean-cut crisp creamy white pompons in abundance. Because of the beautiful growth habit, the plant itself is an ornament in the garden.	30	Sept. 28	.75	2.00
Albaflorea. D. (Lehman #1186.) New 1959! A finished flower with heavy, velvety texture and snow-white blooms in abundance. This one has excellent garden value because of its sturdy growth, heavy-textured flower and extremely free-flowering qualities.	24	Sept. 20	.75	2.00	Champagne. D. (Lehman.) An entirely new color in Mums—could be described as ivory-shell-pink. Large bloom on strong, well-branched plants. An exquisite color.	36	Sept. 28	1.00	2.50
Ann Ladygo. D. (Kraus.) An anemone-flowered cushion of light camellia-rose-pink. 2½-inch bloom with 1¼-inch, raised center. A delicate beauty.	16	Oct. 5	1.00	2.50	Charles Nye. D. (Kraus.) Large, 3-inch, fully double, rounded flowers of buttercup-yellow. Excellent. The standard by which all other yellows are judged.	28	Sept. 28	.60	1.50
Apache. D. (Kraus.) Pictured p. 11. Oriented to dark brilliant fire-cracker-red with golden overcast. Quilled petals. Very tough, weather-resistant flowers, 4 to 5 inches in diameter. In bloom from mid-September to November.	24	Sept. 15	.75	2.00	Chippewa. D. (Longley.) Gorgeous, bright aster-purple, slightly incurved. Does well in the North.	24	Sept. 4	.60	1.50
Apricot Spoon. Sp. (Lehman.) A pleasingly different spoon of light apricot-rose. Ex-tremely free flowering.	28	Oct. 5	.75	2.00	Chris Columbus. D. (Rosebud.) A most outstanding ivory-white. Luxuriant growth; unexcelled for cutting.	26	Sept. 28	.60	1.50
Artist's Delight. D. (Bristol.) Tastefully elegant, pastel coral-geranium-pink. Lovely 3-inch bloom. Unearthly beauty; tidy habit.	24	Sept. 27	.75	2.00	Chorale. D. (Kraus.) Biscuit-shaped flowers of light phlox-pink lightening to pale greenish yellow at center, aging to chalk-white. Long-lasting bloom.	22	Sept. 22	.75	2.00
August Queen. D. (Lehman #23.) New 1960! This fully double pinkish cream is in continuous bloom from mid-August to October. Large, 4-inch flowers on long cutting stems. Extra early.	24	Aug. 12	1.00	2.50	Clara Curtis. S. This variety begins blooming in late August and from then to freezing weather will be a glorious mound of hundreds of single salmon-pink daisy-like blossoms.	20	Aug. 15	.60	1.50
Autumn Beauty. D. (Wallie's Gdns.) Pictured p. 2. A brilliant sparkling reddish chestnut. The best early bronze.	15	Sept. 4	.60	1.50	Companion. D. (Lehman.) Pictured p. 2. Reliable early-blooming, fully double golden bronze. A grand companion to the darker Early Kathleen. Excellent long stems for cutting.	24	Sept. 15	.75	2.00
Avalanche. D. (Dreer.) Large, shaggy white with cream center. Everyone's favorite. Good for cutting.	16	Sept. 4	.60	1.50	Coral Mist. D. (Lehman #1157.) New 1960! Brightest coral-salmon pompons produced in abundance. Excellent base-branching plant with long cutting stems.	28	Sept. 25	1.00	2.50
Beacon. D. (Lehman.) Full, double, 4-inch flower of coral-apricot shading to flaming nasturtium-orange at center. Tall, sturdy plant for cutting.	36	Oct. 8	.60	1.50	Cortis Rice. D. (Lehman #108.) New 1960! "The Mum of the Year 1960." A superb high-centered, early, 5-inch, rich golden yellow on long cutting stems. Outer petals reflexed, dimpled and ruffled. Center petals semi-incurved. Early fall color buttercup-yellow, later blooming honey-bronze. We think this is one of the finest yellow Mums in existence.	30	Sept. 12	1.00	2.50
Betty. SD. (C-P.) Splendid upright rose-pink without a trace of magenta. One of the finest pinks.	28	Sept. 28	.60	1.50					

D., Double; SD., Semi-double; S., Single; Sp., Spoon

Name and Description	Height in Inches	Blooming Date	Price Each	Per 3	Name and Description	Height in Inches	Blooming Date	Price Each	Per 3
Courageous. D. (Kraus.) Shining dark ruby-red, large double flowers. A truly magnificent plant.....	26	Sept. 28	\$0.60	\$1.50	Edna Rowley. D. (Kraus.) Pictured on cover. Over 500 lavender-pink, ruby-centered pompon flowers cover this mound-shaped plant. Excellent for cut flowers and floral arrangements. Edna Rowley is definitely the most prolific-blooming Mum we grow.....	24	Sept. 26	\$0.75	\$2.00
Crowning Glory. D. (Lehman.) Pictured on cover. Magnificent new flower of Spanish-orange overcast with coral, darker at center. Strong, upright plant. Could be described as a glorified Beacon that blooms two weeks earlier.....	30	Sept. 25	.75	2.00	Ermine. D. (Kraus.) Pictured on cover. Wide-petaled pure white with cream center. Tall, sturdy plant and vigorous grower. Excellent when cut.....	30	Sept. 22	.60	1.50
Crown Jewel. D. (Kraus.) A 3-inch, currant-red flower with a brilliant sheen. Strong, sturdy, free-blooming through October.....	27	Oct. 1	.60	1.50	Evelyn Devaney. D. (Lehman.) Pictured on cover. The most delicately beautiful of all Mums. Color is new to Mums—true pearly shell-pink. Flowers are stylishly tailored with closely imbricated petals.....	26	Sept. 26	.75	2.00
Crystal. D. (Lehman #1137.) New 1959! A new wide-petaled, pure white pompon that is outstanding for cutting. Long, straight stems.....	28	Sept. 27	.75	2.00	Fairbow. D. (Kraus.) Heavy-blooming lavender-pink pompon. Splendid upright growth makes it a good cut flower.....	24	Sept. 10	.60	1.50
Cydonia. D. Brilliant orange-chestnut overlaid with mahogany. Everyone likes it.....	30	Oct. 8	.60	1.50	Football Bronze. D. (Lehman.) An extremely early, large-flowering, incurved bronze. Very tall, strong, upright plant.....	26	Sept. 22	.75	2.00
Dainty. D. (Lehman.) A beautiful blend of light lavender-lilac aging to soft white with silvery cast. Very early.....	16	Aug. 27	.60	1.50	Fred Stone. D. (Kraus.) Large, very dark bright red. Brilliant color. Extra large and good disbudded.....	30	Oct. 1	.75	2.00
Daisymum. S. (Lehman.) Pictured on cover. The newest and best single in existence. Flower opens beautiful ivory, changing to pure alabaster-white, with three to four rows of wide flat petals with rounded ends. Pure gold center. Tall, base-branched plants give glorious cutting stems.....	30	Sept. 22	.75	2.00	Gammy. D. (Lehman.) An extremely prolific, deep rosy lavender pompon. Flowers completely double, with very fine substance and beautiful color.....	24	Sept. 20	.75	2.00
Dandy. D. (Lehman #1082.) New 1959! A profusion of 3-inch, coppery bronze flowers that resemble small incurved football Mums. Rather short but extremely strong growth. A dandy!.....	25	Sept. 16	.75	2.00	George Luxton. D. (Lehman.) An extremely early, full double, wide-petaled, soft bronze flower 3½ inches in diameter. Excellent plant with abundant base branches for cutting.....	25	Sept. 12	.60	1.50
Delight. D. (Lehman.) Large, perfect flower of golden yellow. Excellent plant and foliage. We consider this the best early yellow.....	26	Sept. 7	.60	1.50	Gladness. D. (Kraus.) Fully double, clear China-rose. Dwarf, free-flowering plant. Winter-hardy and one of the first to bloom.....	18	Aug. 28	.60	1.50
Dr. L. E. Longley. D. (U. of Minn.) Earliest fully double, bright rosy lavender. Usually the very first Mum in our collection to bloom.....	20	Aug. 20	.75	2.00	Gleam. D. (Lehman. #1231.) New 1959! Masses of small (1½-inch), pure golden yellow pompons on trim plants from mid-September to frost.....	20	Sept. 15	.75	2.00
Early Crimson. D. (Lehman.) Brilliant sparkling jewel-like, pompon flowers of bright crimson, on stiff, upright plants. Very hardy.....	26	Sept. 14	.60	1.50	Gold Button. D. (Kraus.) A complete mass of golden yellow with brilliant Spanish-orange eye spot. 1½-inch button pompon flower, completely double.....	22	Sept. 10	.75	2.00
Early Gold. D. (Lehman.) Pictured on cover and p. 2. Very early! Bright golden yellow pompon with dark foliage. Excellent for pots or borders.....	18	Sept. 4	.60	1.50	Gold Daisy. S. (Lehman.) Our best gold single to date. Opens gold to canary-yellow, with big dome-shaped golden center. Three-inch flowers on 20-inch cutting stems.....	21	Sept. 17	.75	2.00
Early Harvest. D. (Kraus.) A mass of charming mahogany-orange flowers for two months. Superior to all popular cushion varieties.....	16	Sept. 7	.60	1.50	Gold Spoon. D. (Lehman.) Large flower of gold shading to aureolin-yellow on a dwarf plant. Tube longer than spoon and always about the same color.....	18	Oct. 1	.60	1.50
Early Kathleen. D. (Lehman.) An early coppery bronze. A dead ringer in both color and form for the popular Kathleen Lehman, but two to three weeks earlier. Wonderful for cutting.....	26	Sept. 12	.60	1.50	Golden Mound. D. (Lehman.) Pictured on cover. Excellent golden yellow cushion. Numerous 2-inch flowers on short, dark green branches.....	18	Sept. 12	.60	1.50
Early Lavender. D. (Kraus.) A delicate-toned, early-flowering, pure pearly lavender with slightly deeper center. Free flowering and vigorous cushion.....	20	Sept. 20	.60	1.50	Granny Lehman. D. (Lehman.) Sparkling, heavy-textured, pure white with striking petal arrangement. Loose branching plant produces long cutting stems with six gorgeous flowers. Excellent for arrangements and does not turn lavender with age.....	22	Sept. 20	.75	2.00
Early Pastel. D. (Lehman #865.) A gorgeous combination of fawn-amber and apricot gives us the gorgeous pastel coloring of Mrs. du Pont a full month earlier. Very prolific.....	22	Sept. 15	.60	1.50	Harvest Bronze. D. (U. of Minn.) A rich apricot-bronze with a gold undertone. Large, 3-inch flowers on a low plant. Very early.....	15	Aug. 20	.60	1.50
Early White. D. (Lehman.) Extra-early, clean cream-white. Wide petals and fine texture with clear coloring make this our best early white.....	18	Aug. 28	.60	1.50					

D., Double; SD., Semi-double; S., Single; Sp., Spoon

Name and Description	Height in Inches	Blooming Date	Price Each	Per 3	Name and Description	Height in Inches	Blooming Date	Price Each	Per 3
Hilite. D. (Lehman.) Fine large, dahlia-like flared yellow. Strong clean plant with beautiful dome-shaped individual flowers.....	30	Sept. 25	\$0.75	\$2.00	Mahogany Cushion. D. (Lehman.) Twisted petals of jasper-red shading to mahogany. Large cushion plant.....	20	Sept. 28	\$0.60	\$1.50
Holiday. D. (Kraus.) Pictured p. 11. Strong plant supporting an abundance of bronze-gold flowers with pure bronze center. Large flower, excellent when cut.....	24	Sept. 27	.60	1.50	Malinda Brown. D. (Kraus.) A magnificent clear self lavender-pink. Flowers globular, mounded at center; petals strongly incurved and twisted. Very strong and healthy.....	24	Sept. 27	.60	1.50
Honeycomb. D. Formal golden yellow pompon.....	24	Sept. 28	.75	2.00	Martin's White. D. (Lehman.) Absolutely pure white, wide-petaled, 4-inch flowers with light green foliage on cushion plant. In bloom for two months.....	20	Sept. 20	.75	2.00
Indian Red. D. (Lehman.) Large, Indian-rust-colored Mum. Petals radiate from a unique center swirl which gives bold flower distinctive charm.....	26	Oct. 3	.75	2.00	Martin's Yellow. D. In our estimation the very finest early, large-flowered light yellow in existence. Flowers very large, fluffy and exquisite light yellow.....	18	Sept. 15	.75	2.00
Jessamine Williams. Sp. (Kraus.) Beautifully quilled white spoon, early and very free flowering.....	24	Sept. 20	.60	1.50	Masquerade. D. (Bristol.) A glistening mass of silvery lavender and rose pompons. Trim, neat, compact plant. Flowers completely smother the plant.....	24	Oct. 6	.75	2.00
Jeweltone. D. (Kraus.) Sparkling bright rose-pink pompon. Excellent for pots or short-stemmed cuts. Really a jewel.....	24	Sept. 25	.60	1.50	Minnehaha. D. (U. of Minn.) Delightful salmon-rose flowers completely cover the mound-like plants in early fall.....	20	Sept. 9	.75	2.00
John Furst. D. (Kraus.) A typical fall color in Mums. Fully double, brilliant glistening orange. Wonderful strong plant and beautiful flowers.....	30	Oct. 1	.75	2.00	Minnpink. D. (U. of Minn.) Pictured on cover and p. 12. The most gorgeous color of all the compact, early cushion varieties. Thousands of clear, clean rose-pink flowers completely hide the mound-like plant.....	16	Sept. 20	.75	2.00
John Milbrath. D. (Kraus.) Glistening bright yellow, 3-inch pompon. Finely knit petals, making a firm, long-lasting bloom. Finest early yellow cut flower.....	26	Sept. 10	.75	2.00	Mojave Gold. D. (Kraus.) Pictured p. 11. Immense, disk-like flowers of sparkling golden bronze. Huge blooms. An exhibitor's favorite.....	28	Sept. 27	.75	2.00
Joyous. D. (Bristol.) Salmon-rose blooms with a golden haze completely cover the mound-like plants.....	20	Sept. 26	.75	2.00	Muriel Rice. D. (Lehman.) Pictured on cover and p. 11. Fully double, 4-inch flowers of light primrose-yellow aging to deep cream early in the season. Later it picks up a lavender tint much like Peace rose. Another American variety showing the large flower influence of English blood. Extremely thrifty.....	26	Sept. 25	.75	2.00
Jubilee. D. (Bristol.) Opens crimson, mellowing to a deep clear red. Plant all aglow for weeks.....	18	Oct. 1	.60	1.50	Myrtle Walgreen. D. (Kraus.) Rich amaranth-purple underlaid with silvery lilac, aging to clean, clear mallow-purple. Excellent.....	26	Sept. 28	.60	1.50
Julie B. D. (Lehman.) A wonderful white button pompon. Shows slight cream center when fresh but turns completely white and ball shaped, with no eye, when fully open. Upright cushion growth. Good for cutting.....	21	Sept. 20	.75	2.00	Nanook. D. (Kraus.) A dwarf, compact mound completely smothered by white flowers with cream centers.....	14	Sept. 14	.60	1.50
Kathleen Lehman. D. (Kraus.) Brightest orange-gold, deepening to red-gold at center. Exciting bronze shades.....	28	Sept. 28	.60	1.50	New Drifted Snow. D. (Lehman.) Heavy-textured, 3-inch, white blooms for nearly two months. Very clean plant with spreading growth and drifting appearance.....	23	Sept. 10	.75	2.00
Lady's Choice. D. (Lehman.) A large pastel, which could be described as pink-ivory. A fully double, 4-inch flower on a magnificent plant. Fine for arrangements.....	36	Sept. 26	.75	2.00	Nina Rebmen. D. (Kraus.) Bright dark red, 3-inch flower on fine plant. Does not fade. Rich color.....	28	Oct. 5	.75	2.00
Lavender Button. D. (Lehman.) Another of the wonderful new button introductions. Lavender-blue pompon flower with darker center. Good, free blooming and similar in flower to Masquerade. Plant very tall.....	28	Sept. 15	.75	2.00	Nobility. D. (Lehman #1044.) New 1959! Velvety-textured, deep dark red flowers on strong branched plants. Excellent dark green foliage.....	26	Oct. 4	.75	2.00
Lemon Drop. D. (Lehman.) A yellow button pompon with a slight green overtone radiating from the center. Extra fine foliage and habit. Very hardy.....	17	Sept. 8	.60	1.50	Nye's Favorite. D. Masses of lavender-pink flowers with golden shadings.....	24	Sept. 12	.60	1.50
Limelight. D. (Floralane.) Lively light yellow pompon. Very vigorous grower. Early; good for cutting.....	34	Sept. 20	.60	1.50	Old Lavender. D. (Lehman.) Massive, pure lavender self flowers on strong, sturdy stems.....	34	Sept. 30	.60	1.50
Lipstick. D. (Grand Mere.) A grand, bright mound of sparkling crimson-red flowers on compact plants.....	22	Sept. 25	.75	2.00	Orchid Helen. D. (Becker.) Sturdy, orchid-pink flowers of unusual beauty. Very strong, healthy.....	18	Sept. 10	.60	1.50
Loveliness Spoon. D. (Lehman.) A superb, fully double, carmine-pink spoon. Unique.....	20	Sept. 26	.60	1.50	Orsona. D. (DePetris.) Red-bronze decorative. Bushy cushion growth habit.....	24	Sept. 25	.60	1.50
Luxton's Red. D. (Lehman.) A dark red bud sport of George Luxton, with all the other good qualities of its parent.....	25	Sept. 12	.75	2.00	Patricia Lehman. D. (Kraus.) Pictured p. 11. Sparkling geranium-pink with peach center. Recurved and twisted petals give a fluffy, feathery effect. Strong growth, good for cut flowers.....	24	Sept. 28	.60	1.50
Magenta Spoon. D. (Lehman.) Lively magenta-rose spoon flowers in profusion.....	22	Oct. 1	.60	1.50

Mum Culture and Care

We believe our sure-to-bloom plants, grown from virgin cuttings, well established in 2¼-inch pots and sent to you with a ball of good soil about the roots, are the most practical and economical to buy. Our Mother plants are grown as nature intended them to be—given a rest period of two months. This insures much more vigorous offspring than plants grown by many who use the artificial method of keeping the plants growing the year around, which decreases vigor and encourages premature budding. Our plants make big, healthy, blooming specimens by early fall. Our Mum stock is carefully grown and rogued, true to name, and state inspected. We take pride in having Mum plants with clean, healthy foliage clear to the ground. We have hundreds of letters in our files from every state in the country telling us how well our plants have done in all sections.

CULTURE

Mums in the garden should be planted in an open, sunny location and should not be shaded by buildings, large shrubs or trees for more than three or four hours per day. Any fairly rich soil, be it sandy, clay or loam, that will grow other flowers and vegetables well, will also grow good Mums. There is no soil that Mums particularly favor; they will grow equally well in all. They love humus such as peat, leaf mold or barnyard manure. They will not thrive in a hard-baked and cracked soil. Loosen it up with peat so the water will penetrate and not run off when applied.

PLANTING

Spring is by far the best planting season. The proper planting time is when the spring garden work is well under way and the heavy, ice-freezing frosts are past. Planting can begin about the time early tulips begin to bloom and can be continued until peonies are in bloom. Here in Southern Minnesota this would be from about late April until mid-June. Farther south this date would be advanced according to the climate. Young plants always give the best bloom, so we recommend that clumps that have wintered be divided in the spring to individual shoots when they have made 4 or 5 inches of growth. You will be surprised how rapidly these small shoots will grow and how much better bloom they will give you than old crowded clumps.

FERTILIZING

Our Mums are grown in a black loam soil to which peat has been added. Inasmuch as peat is completely deficient in phosphate, we use bonemeal or superphosphate well worked into the soil before planting, at the rate of a small handful per plant.

At planting time it is good practice to give your plants a head start by using one of the water-soluble fertilizers such as Ra-Pid-Gro, Plant Marvel, Hyponex or Instant Vigoro. Dissolve this fertilizer in water according to directions, and then make a saucer-like ring around each plant. Give each one a good soaking of about a gallon of this solution. This process can be repeated at one-month intervals during the summer for maximum growth.

If you prefer to use a dry fertilizer in place of the liquid, one or two applications will be sufficient. Roughly, about a small handful of commercial fertilizer per plant at about one-month intervals is sufficient. The first application can be made in late July or early August. This highly concentrated fertilizer should not be used when the soil is dry, because foliage and root burn will result. Be sure that plenty of moisture is available at time of application.

PINCHING

To have sturdy and well-branched plants it is advisable to pinch the terminal shoots once or twice during the season. This operation is done with the thumb and forefinger and consists of removing about ½ inch of the soft growing tip of the main shoots. The first pinching should be done when the plants are about 6 inches tall, to induce lateral branches. When these lateral branches are 8 to 10 inches tall, their tips should be removed to induce more branches. Discontinue pinching by August 1, as the plants will soon be forming buds. The very early-blooming varieties should not be pinched after July 15.

BLOOMING TIME

It has been definitely proved that Chrysanthemums are sensitive to light and that the length of day determines the blooming time for a given variety. Since Minnesota is quite far north, where naturally the fall days are shorter than farther south, a given variety will normally bloom 20 days earlier here than in Texas. We are located approximately 200 miles north of Chicago, and we know that the same variety will begin blooming for us four or five days sooner than in Chicago. From this we deduct that perhaps two days for every 100 miles of latitude is about the average difference in blooming time.

Temperature is also a very important factor in the blooming time of Mums. For every day that the temperature is above 90 degrees during the bud-formation period (August and September) of garden Chrysanthemums, the blooming time will be retarded about one day. Hence when we have cool weather in fall, the Mums will bloom early and when we have hot weather the Mums will bloom late. Interesting, isn't it?

SPRAYING

In order to get the best from your Mums we recommend a simple spray or dusting program to keep your plants free from insects and disease. In gardens with a wide variety of plants that naturally harbor insects and diseases, Mums will need a little attention. Usually the dusts or sprays recommended for roses will control the major Mum troubles. We think three or four dustings or sprayings at two-week intervals are sufficient to produce a good healthy crop of flowers.

The most common insects attacking Mums are aphids, tarnished plant bugs, red spiders and leaf hoppers. The less common ones are foliar nematodes and grasshoppers.

We have been very successful using a combination spray of Malathion, D.D.T. and Fermate at two-week intervals during the summer. This combination will control all major insects and leaf spots. We use the following concentrations:

To a gallon of water, we add the following:

1 tablespoonful 25% wettable Malathion, 2 tablespoonfuls 50% wettable D.D.T., 1 tablespoonful Fermate and 1 tablespoonful Dreft to make the solution stick to the foliage

Foliar nematode is an extremely small insect that lives within the leaf tissue of Mums and causes the foliage to turn brown from the bottom of the plant upward; in severe cases all the foliage will be browned, leaving the naked flowers on the stems. In areas where the foliar nematode is troublesome, we recommend spraying with 15% wettable Parathion at the rate of one tablespoonful to a gallon of water. Although the Parathion is very toxic and somewhat dangerous, it is safe if used according to directions and with caution.

Another method of combating the foliar nematode is by using Sodium Selenate. This material is applied to the soil; the poison is absorbed by the roots and is translocated in the sap stream, making the plant poisonous to the insect. It should be applied to the soil at the rate of 1½ pounds to 100 square feet. This is a deadly poison, and no food crops of any kind should be grown on this soil for at least one year. If you are unable to secure Sodium Selenate locally, we can supply it at \$1.00 per pound. It cannot be sent through the mail and must come to you by Express Collect.

If you cannot secure good sprays from your local dealer, we are in a position to supply you with the following:

All Purpose Mum and Rose Spray containing Malathion, D.D.T. and Fermate or Captan, at the following prices:

8 ozs. \$1.50 (a season's supply for 50 plants)

Lb. \$1.75 (a season's supply for 100 plants)

D.D.T. 50% Wettable. Lb. \$1.25.

Fermate. ½lb. \$1.25.

Chlordane 45% Emulsion. ½pt. \$1.50.

CLEMATIS

Since the introduction of the large-flowered hybrid varieties from Europe, the Clematis is rapidly becoming one of the leading vines in America. These new hybrids have spectacular flowers and glorious colors. Most of them are practically everblooming. They can be grown on trellises, arbors or posts, or can be left to ramble over an old stump or rock wall.

We find that an east or south exposure is best. They prefer a rich soil and can take a lot of water, provided the drainage is perfect.

There are no insects or diseases that trouble Clematis in the North. They are perfectly hardy and make excellent cut flowers. Planting can be done in the spring. The plants we send out are one year old, pot grown, and should be planted 3 to 4 inches deeper than they were in the pot. This is important, and perhaps the reason for many failures with Clematis is too shallow planting. Our collection now consists of over 50 varieties, and we are herewith listing some of the most spectacular and easy-to-grow kinds.

COMTESSE DE BOUCHAUD. In our estimation the closest approach to clear pink of all the hybrid Clematis. The color is a clear satiny rose. Flowers in abundance from July until September. Neat growing habit, up to 7 to 8 feet. \$2.00.

CRIMSON STAR. We think this is the finest of all hybrid red Clematis. Large, clear crimson flowers with pointed petals. Very free flowering, blooming from July to September. The variety we offer is true Crimson Star. \$2.00.

DUCHESS OF EDINBURGH. Double, gardenia-like, cream-white flowers with a chartreuse overcast. Very unique and desirable. In bloom from mid-July on. \$2.00.

ERNEST MARKHAM. A very strong-growing Clematis in red shades. Petals wide, rounded at the ends, of bright cerise-red. Perhaps the best of all the light reds. July blooming. \$1.75.

FAIRY QUEEN. The finest white in our collection. Large, wide-petaled flowers 7 inches across; pure white with a pearl overcast. In bloom from June to September. Sturdy growth to 10 feet in height. \$1.75.

HENRYI. The giant among white Clematis. Large, paper-white, long-pointed petals and chocolate-brown anthers. In bloom from July to frost. Vigorous growth, 8 to 10 feet. \$1.75.

HULDINE. The translucent blooms are pearly white with a bluish undertone. Strong growing, up to 12 feet. Free flowering from July to October. \$1.75.

JACKMANI. The most popular Clematis in America. Seen throughout the length and breadth of the land with its masses of four and five-petaled, deep purple flowers in July. Extremely vigorous and hardy. 8 to 10 feet. \$1.50.

JACKMANI SUPERBA. A new hybrid that is larger and deeper colored than Jackmani. A splendid addition to the deep purple class. Rich velvety deep purple in color, and in bloom most of the summer. Height to 8 feet. \$1.75.

LADY BETTY BALFOUR. This is the finest deep blue in our collection. Color is a very velvety deep navy-blue with a center of white anthers. Very vigorous and free flowering. Plant Lady Betty Balfour and you plant the best in deep blue Clematis. Height to 12 feet. \$1.75.

LANUGINOSA CANDIDA. Large flowers of the purest white, abundantly produced from midsummer to frost. Plant vigorous and sturdy, climbing to 10 feet. \$1.75.

M. KOESTER. An extremely vigorous and free-blooming mauve-pink. In bloom from midsummer to frost. Sturdy growth to 10 feet. \$1.75.

MME. BARON VELLARD. An extremely vigorous and satisfactory pink Clematis. Color is a clear lilac-rose, becoming much deeper in the fall as the days become cooler and shorter. In continuous bloom from June to September. Very sturdy growth from 10 to 12 feet. \$1.50.

MME. HOLMONDELEY. An extremely early-flowering variety of wisteria or delphinium-blue. In bloom from June to September, on moderately vigorous plants to 8 feet. \$1.75.

MME. EDOUARD ANDRE. One of the older red Clematis, with smaller flowers on moderately vigorous plants. \$1.50.

NELLY MOSER. The very earliest of all Clematis to bloom. The first flowers usually appear right after the Darwin tulips bloom and continue most of the summer. Color pale mauve-pink with a red stripe down the center of each petal. Moderate growth to 8 feet. \$2.00.

PANICULATA. Quantities of small, fragrant, star-shaped white flowers. Very popular and widely grown. 15 to 18 feet. Blooms in September and October. \$1.50.

PRESIDENT. One of the most gorgeous of the deep rich reddish plum-colored varieties. Flowers are large, with extremely pointed petals and brilliant color. Moderate growth up to 7 to 8 feet. June. \$1.75.

RAMONA. Our favorite of all the medium blue Clematis. Flowers exceptionally large (6 to 8 inches across), with wide, heavy-textured petals. Free and dependable bloomer from July until frost. Plant vigorous, climbing to 10 feet. \$1.75.

VILLE DE LYON. Very free-flowering carmine-red with darker stripe in the center of each petal. Blooms from July to September and grows to a height of 8 to 10 feet. \$1.75.

WILLIAM KENNETH. Very large, deep cool lavender flowers produced in abundance from June to September. \$1.75.

PASSIFLORA (Passion-Vine)

One of our hobbies over the years has been collecting and growing these exotic and interesting vines. If they are planted out in the spring and given rich soil, abundant moisture and a sunny spot, they will provide a succession of bloom all summer long. They are not hardy in the North, so they must be treated as annuals or taken indoors for the winter. They can also be grown in large pots sunk into the ground for the summer. A vine in flower will create much interest among your gardening friends. Our plants are large, one-year-old vines that are sure-to-bloom within a month after planting.

ALATA CAERULEA. Large, showy, fragrant flowers with lavender-pink petals and purple crown with white corona. The most spectacular Passiflora. Sturdy plants. \$1.50.

INCARNATA (Maypop). Greenish white petals and blue-purple filaments. The easiest to grow and most free flowering. \$1.50.

MARCEL. A curious hybrid with lilac-pink petals and light blue, crinkled filaments. Extremely fragrant. \$1.50.

If you are not familiar with varieties and would like us to help you make your selection, we can save you 30%.

3 SURE-TO-BLOOM PLANTS \$4.00

We appreciate all orders. No order too large and none too small. Resistance may be made by registered mail for cash. Stamps, postal or press money order, and personal check also accepted. When sending check, kindly add 5c for exchange fee.

We prepay the transportation charges on all orders of \$3.00 or more. On smaller orders, kindly add 15% for postage. When you order from us you know exactly what your plants will cost you delivered to your door.

Minnesota has no sales tax law. Do not include your state sales tax when remitting to us.

If you want quick delivery of your plants, we are equipped to give you this service at the following rates:

1 to 4 plants 45c
5 to 24 plants 55c
over 25 plants 70c

Just add the amount to your remittance and we will prepay postage and send Special Delivery. An extra plant will be enclosed with each Special Delivery order.

Solve your Christmas shopping problems by giving "MUMS FROM MINNESOTA" to friends and relatives. It's simple! Avoid the crowds! Just make your selection from this catalog at home and mail it to us. That's all you have to do. We will send your friends a gift card at Christmas-time giving the names of the plants you have chosen to be sent at spring-planting time. The Mums will be sent out postpaid in the spring, all ready to start growing in their gardens. Your friends will truly appreciate your thoughtfulness in choosing "MUMS FROM MINNESOTA" for their Christmas gift.

In the past we have always received much pleasure from including additional plants of some of the better varieties as gift or gratis plants. We hope to continue this custom. The number of gift plants will be determined by the size of the order. Whenever we order plants from a nursery, we are always thrilled to receive something we didn't expect. We hope our choices will please you. The Golden Rule will be applied here.

This year we are growing nearly a million sure-to-bloom Mums. We know this will not be enough to supply all our customers. If we cannot supply the variety ordered, **may we substitute a variety of equal or greater value of a similar color and season of bloom?**
